

## LAUNCH OF STRYKER COMMUNICATIONS' WIRELESS SURVEILLANCE SYSTEMS

Stryker Communications Limited is pleased to announce its launch and the introduction of a new generation of intelligent wireless-based mobile surveillance systems.

Specialising in solutions designed to satisfy the demanding needs of both overt and covert operational surveillance, Stryker have developed a range of innovative, leading-edge products that provide advanced deployment, monitoring and video analysis capabilities.

The Stryker team have extensive experience in the surveillance arena, having previously developed and brought to market some of the most innovative concepts in hardware and software-based surveillance products in recent years.

This experience combined with our leading-edge product range, in-house development and integration skills, enables Stryker to satisfy the most complex and operationally sophisticated requirements. This includes mobile deployable surveillance, video analysis and automatic recognition systems.

We aim to build long term relationships with our customers by providing customer-led solutions, quality products, excellent service and value for money.

**To discuss your requirements and find out more about Stryker and our services, simply call or email one of the team opposite. We will be delighted to hear from you.**
